Reaction Class

This test is not intended to diagnose, treat, cure, or prevent any disease or replace the medical advice and/or treatment obtained from a veterinarian. US BioTek's proprietary ELISA analysis is a semi-quantitative assessment for specific IgG antibodies. The classification of 0 to VI denotes the level of IgG antibodies detected through spectrophotometric analysis. US BioTek Laboratories has developed and determined the performance characteristics of this test. This test has not been evaluated by the U.S. Food and Drug Administration. The antigens in this panel are subject to change without prior notice. Reference ranges are updated periodically.
